

Clinical Physicist – Albany, NY

Organization/Position Overview:

Aspekt Solutions strives to provide the highest quality professional services with core competency in medical and industrial radiation applications. Aspekt (formerly AMP Global and RMA) has provided trusted radiation oncology, radiology, and radiation safety solutions for more than 20 years.

Our business is growing, and we are seeking a dynamic clinical medical physicist to join our team supporting St. Peter's Hospital in Albany, NY.

Albany is in the heart of burgeoning Tech Valley. Discover downtown Albany's booming craft beverage industry, must-see attractions, and vibrant culture. Revel in the region's rich history with world-class museums, historic homes, and fascinating architecture. Explore beyond the city limits for scenic views and thrilling outdoor adventures.

Facility Equipment

All Varian department with 2 Varian iX linacs, cone based SRS, Eclipse and HDR (the R&V system is still Mosaik for a few more months and will then be going to ARIA). Treatment modalities include external beam IMRT, HDR and SRS.

Requirements and Qualifications:

This position requires an M. Sc. or equivalent degree in medical physics, radiological physics, or related field and completion of a residency program in clinical medical physics, three years of experience, board certification and a New York license.
