

## Radiation Physics Inspection Services Business for Sale

An Edmonton based radiation inspection services business is up for sale.

This business is an ARPIA (Authorized Radiation Protection Inspection Agency) registered with the Province of Alberta.

The business performs radiation safety and Health Canada compliance inspections for the following industries and equipment:

---

### Medical

CT Scanners  
Fluoroscopy (Remote and Interventional)  
General Radiography  
Mobile Radiography  
Mobile Fluoroscopy  
Bone Mineral Densitometry  
Medical Lasers  
Mammography

### Dental

Cone Beam CT  
Intra-Oral X-Ray  
Panoramic X-ray  
Cephalometric X-Ray  
Dental Lasers

### Commercial

Analytical X-Ray (XRF, XRT)  
Package/Baggage Scanners  
Process X-Ray  
Industrial X-Ray  
Whole Body Scanners  
Commercial CT Scanners

### Veterinary

General Radiography  
Portable Radiography  
Dental Intra-Oral  
Veterinary Lasers

### Chiropractic

General Radiography  
Chiropractic lasers

---

The business has contracts for annual testing/inspections with hospitals/clinics in the following locations: NWT; Yukon; Northern BC; Saskatchewan; Sites all over Alberta

The business comes with an associate in Edmonton (physicist) and two associates in Calgary (BMETs).

### The bottom line:

You will have to move to beautiful Alberta and sunny Edmonton.

You will likely become a fan of the Oilers and Elks.

You will run your own physics consulting business.

Time commitment will be yours to organize/control.

The company comes with an associate in Edmonton (physicist) and two associates in Calgary (BMETs).

There is a LOT of demand for regulatory inspections from the above-listed industries.

There will be considerable travel to all parts of Alberta, northern BC, and the Yukon Territories (as well as the NWT). You will need to like to drive and fly.

There is **considerable** income (likely quite a lot more than you're getting right now.....but you'll have to buy the company first..).
