

Medical Physicist, Radiation Therapy BC Cancer – Kelowna

Job Type: Regular, Full-Time

Salary Range: \$137,035- \$196,988 / year.

Location: 399 Royal Ave, Kelowna, BC V1Y 5L3

Hours of Work: Monday-Friday; 0800 – 1600

BC Cancer – Kelowna is seeking applications for a permanent, full-time Medical Physicist position.

Come work in a city where Canadians choose to vacation! Kelowna is a vibrant city in the heart of the BC interior, with an abundance of outdoor recreational activities. In the summer, visitors flock to the city to experience the wineries, lakeside living, hiking, mountain biking, and much more. In the winter, Kelowna is the ideal starting point for your downhill skiing adventure, with multiple world – class ski resorts within an hour’s drive.

The successful applicant will join a team of 10 medical physicists in a department with cutting-edge technology and research. This team provides support for 5 linear accelerators, including 4 Truebeams (2 SRS capable), and Canada’s first and only clinical Ethos adaptive radiotherapy system. The centre has an extensive brachytherapy program, which includes HDR treatment capability for prostate, skin, and complex gynecological targets.

Education and research opportunities abound in Kelowna! The team helps to support a provincial CAMPEP medical physics residency training program with 6 residents spread across the province. Adjunct academic appointments are available at UBC Okanagan, which is home to a CAMPEP accredited graduate program in Medical Physics. Through this program, physicists have access to graduate students, teaching opportunity, and research partnerships with other departments at the university.

Applicants with a Ph.D. (preferred) or M.Sc. in physics and completion of a CAMPEP accredited residency program are invited to apply. MCCPM or equivalent membership is required within 2 years of entering this position. Relocation assistance is available.

Please reach out for more information on working and living in Kelowna.

To apply, please submit a cover letter and CV via email.

Nathan Becker PhD, FCCPM, Regional Leader of Medical Physics, BC Cancer – Kelowna
