

Come Join our Team!

Big White Shell Lake, Manitoba

Inverness Falls, Manitoba

About Manitoba

Manitoba is a diverse province of over 1.2 million people. Our summers are long and hot with quick access to lakes and beaches. Winnipeg is home to numerous festivals, many cultural attractions, and has one of the best food scenes in the country. Winnipeg is a great place to raise a family with its excellent school system and lower cost of living than other major cities in Canada.

About us

Our Vision? A world free of cancer. At CancerCare Manitoba you'll be joining a team of seasoned professionals (14 Physicists, 19 Radiation Oncologist) who will help you propel your career to the next level. You will have the opportunity to gain a broad range of clinical experiences, and depending on your expertise, supervise students and contribute to research and teaching.

About the Job

We are hiring two physicists in our Radiation Oncology Physics Group. Qualifications for the ideal candidate are:

- MSc in Radiotherapy Physics; PhD an asset
- Minimum of 2 years clinical training experience with MCCPM certification or eligibility to apply

If you meet these requirements and want to be an integral part of healthcare in Manitoba while meeting the specialized needs of CancerCare clients, please send your resume and cover letter to:

CancerCare Manitoba
Human Resources
675 McDermot Avenue
Winnipeg, MB R3E 0V9
Email: jobs@cancercare.mb.ca

Closing Date: open until filled; responses preferred by December 1, 2023

Informal enquiries may be made to the reporting manager:
Anita Berndt, Ph.D., MCCPM
Section Head, Radiation Oncology Physics
CancerCare Manitoba
Phone: (204) 787-2518
Email: aberndt@cancercare.mb.ca
